405.04 Where a public road, street, or alley is officially vacated or abandoned, the regulations applicable to the property to which it is reverted shall apply to such vacated or abandoned road, street, or alley.

In case of subsequent dispute, the matter shall be referred to the Board of Zoning Appeals which shall determine the boundary in accordance with Section 806.01 of this Ordinance.

Only two sides of a canopy sign shall be included in the calculation of area when the sign faces are arranged to be viewed two at a time.

(3) Only those signs which require a permit shall be considered in calculating allowable area of a sign.

(b) Distribution of Signage: where more than one business activity is located within a single building on an individual lot, maximum copy area is to be divided and distributed by the owner or manager among the several business activities within the building.

© Multiple frontages: where a lot fronts two different roads, the maximum copy area for signage may be doubled. The additional signage, however, is tied to the second road frontage and shall be used only on the second road frontage. This provision shall apply to both corner lots and double frontage (through) lots.

(d) Height: height of the sign is measured from elevation of road grade at the nearest point on the frontage road, to the top of the sign.

SECTION 708
NON CONFORMING LOTS, BUILDINGS, AND USES

It is the intent of this Ordinance to recognize that the elimination of existing lots, buildings, and structures or uses that are not in conformity with the provisions of this Ordinance is as much a subject of health, safety, and general welfare as is the prevention of the establishment of new uses that would violate the provisions of this Ordinance. It is, therefore, the intent of this Ordinance to permit these non conformities to continue, but not to encourage their expansion, permit their expansion, or permit their use as grounds for adding other structures or uses prohibited elsewhere in the same district.

Therefore, any structure or use of land existing at the time of the enactment of this Ordinance, and amendments thereto, but not in conformity with its regulations and provisions, may be continued subject to the following provisions:

708.01 Lots of Record.

Where a lot of record at the time of enactment of this Ordinance does not contain land of sufficient area or width to permit conformity with the dimensional requirements of this Ordinance, the following provisions shall apply:

708.01-1 A single nonconforming lot of record at the time of enactment or amendment of this Ordinance may be used as a building site, provided that yard dimensions and requirements other than those applying to area or width of the lot shall conform to the regulation for the district in which such lot is located. Variances of yard requirements may be obtained only through appeal to the Board, as outlined in Section 807.00 herein.

708.01-2 In the event that a non-conforming lot of record is adjacent to one or more unimproved lots, owned by the same owner, such owner shall be required to combine the non-conforming lots so as to create a conforming lot to the greatest extent possible. Such combination of lots shall be noted on the Certificate of Zoning Compliance. Such certificate of Zoning Compliance shall be recorded in the Office of the Clerk of the Circuit Court of Giles County, Virginia, and evidence of such recording shall be exhibited to the Building Official prior to issuance of a building permit. Prior to the issuance of a Certificate of Zoning Compliance for a non-conforming lot of record, the Zoning Administrator shall make reasonable inquiries to determine the applicability of this subsection. Amended 3/1998

708.01-3 The combination of one or more lots to create one lot for building purposes is expressly permitted. Such combination shall be noted on the Certificate of Zoning Compliance, and such Certificate shall be recorded in the Office of the Clerk of the Circuit Court of Giles County, Virginia. Evidence of such recording shall be exhibited to the Building Official prior to the issuance of a building permit. In the event that the lots are combined, compliance with applicable area, yard and setback requirements shall be determined based upon the outside boundaries of the combined lots. Amended 3/1998

708.02 Nonconforming Structures.

Where a lawful structure exists at the time of enactment or amendment of this Ordinance that could not be built in the district in which it is located by reason of restrictions on lot coverage, height, yard dimensions, or other requirements, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

708.02-1 Any structure or portion thereof declared unsafe by the Building Official may be restored to a safe condition, provided that the requirements of this section are met, and that the cost of restoration of the structure to a safe condition shall not exceed one hundred (100) percent of its replacement cost at the time of the Building Official declaration within two (2) years and meeting building codes;
708.02-2 No nonconforming structure may be enlarged or altered in any way which increases its non conformity; and any structure or portion thereof may be altered to decrease its non conformity;

708.02-3 Notwithstanding the provisions of Section 708.02-2 above, whenever repairs on or installation of plumbing fixtures in residential structures is required by law or administrative action of the Health Official or the Building Official, such alterations shall be permitted, provided that where such alterations require an addition to the structure, such addition shall be no nearer the lot line than permitted by the requirements of this Ordinance. Where an existing residential structure exceeds these requirements the said addition shall extend no nearer the lot line than the existing building line;

708.02-4 Should a nonconforming structure be moved, it shall thereafter conform to the yard dimension requirements of the district in which it is located after it is moved;

708.02-5 Should a nonconforming structure or nonconforming portion of a structure be destroyed by any means, it shall not be reconstructed to a greater degree of non conformity.

708.03 Nonconforming Uses of Land.

Where a lawful use of land exists at the time of enactment or amendment of this Ordinance that would not be permitted by the regulations imposed herein and where such is either (1) an accessory use involving the use of no separate accessory structure or (2) a principal use involving no individual structure, such use may be continued as long as it remains otherwise lawful, subject to the following provisions:

708.03-1 No such nonconforming use shall be enlarged or increased nor extended to occupy a greater area of land than was occupied at the time of enactment or amendment of this Ordinance;

708.03-2 No such nonconforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the time of enactment or amendment of this Ordinance;

708.03-3 In the event that such use ceases for reasons other than destruction for a period of more than one (1) year any subsequent use shall conform to all requirements of this Ordinance for the district in which the land is located;

708.03-4 No additional structure not conforming to the requirements of this Ordinance shall be constructed in connection with such nonconforming use.

708.04 Nonconforming Uses of Structure.

Where a lawful use involving an individual structure or structures in combination, exists at the time of enactment or amendment of this Ordinance, that would not be permitted in the district in which it is located under the requirements of this Ordinance, such use may be continued as long as it remains otherwise lawful, subject to the following provisions;

708.04-1 No structure existing at the time of enactment or amendment of this Ordinance devoted to a nonconforming use shall be enlarged, extended, moved, or structurally altered, except repairs on or installation of plumbing fixtures required by law or administrative action of the Health Official or the Building Official, or the changing of interior partitions or interior remodeling; or in changing the use of the structure to a conforming use;

708.04-2 Should a structure of portion thereof containing a nonconforming use be destroyed by any means other than fire or act of God, it shall not be reconstructed for any nonconforming use. Any use established in such a reconstructed building or portion thereof must be in conformity with the regulations of the district in which it is located.
708.04-3 Any structure or portion thereof destroyed by fire or act of God or declared unsafe by the Building Official may be restored to a safe condition, provided that the requirements of this section are met, and that the cost of restoration of the structure to a safe condition shall not exceed one hundred (100) percent of its replacement cost at the time of the Building Official declaration if the work is done within two (2) years;

708.04-4 A nonconforming use of a structure may be extended to include use of the entire structure, but shall not be extended to include either additional structures or land outside the structure;

708.04-5 When a nonconforming use of a structure or structures and premises in combination is discontinued or abandoned for one (1) year, or for eighteen (18) months during any three year period, except when government action impedes access to the premises; or when a nonconforming use is superseded by a permitted use; the structure and premises shall not thereafter be used except in conformity with the regulations of the district in which it is located;

708.05 Replacement of Obsolete Structure.

Any non-conforming mobile home which lawfully existed on January 1, 1992 as either a non-conforming structure or a non-conforming use of land may at any time be replaced with a larger mobile home, provided that at the time of such replacement the owner of the lot shall provide evidence satisfactory to the zoning administrator that a mobile home of the same size as the existing mobile home is no longer being manufactured, and further provided that sanitary (septic or sewer) requirements can be met for the larger structure and that the setback regulations for the zoning district are met with the replacement mobile home. This section shall not apply if a variance to the applicable setback regulations would be required to place the larger structure on the lot. Added 6/1995.

SECTION 712
STANDARDS FOR TELECOMMUNICATION TOWERS & ANTENNAS

712.01 DEFINITIONS

Alternative tower structure: Man-made trees, clock towers, bell steeples, light poles and similar alternative-design mounting structures that camouflage or conceal the presence of antennas or towers.

Antenna: Any apparatus designed for telephonic, data, radio, or television communications through the sending and/or receiving of electromagnetic waves.

FAA: The Federal Aviation Administration.

Height: When referring to a tower or other structure, the distance measured from ground level to the highest point on the tower or other structure, even if the highest point is an antenna or lightning rod.

Tower: Any structure that is designed and constructed primarily for the purpose of supporting one or more antennas, including self-supporting lattice towers, guy towers, or monopole towers. The term includes radio and television transmission towers, microwave towers, common-carrier towers, cellular telephone towers, alternative tower structures, and the like.

712.02 USE REGULATIONS

The purpose of this ordinance is to establish general guidelines for the siting of towers and antennas. The goals of this ordinance are to:

• Encourage the location of towers in nonresidential areas and minimize the total number of towers and tower sites throughout the County,

• Encourage strongly the joint use of new and existing tower sites,

• Encourage users of towers and antennas to locate them, to the extent possible, in areas where the adverse impact on the community is minimal,

• Encourage users of towers and antennas to configure them in a way that minimizes the adverse visual impact of the towers and antennas, and

• To provide adequate sites for the provision of telecommunication services with minimal negative impact on the resources of the County.

This ordinance is intended to comply with all federal and state regulations.
712.03 **APPLICABILITY** Amended 10/2010

712.03-1 **District Height Limitations.**

The requirements set forth in this ordinance shall govern the location of towers that exceed, and antennas that are installed at greater than the maximum height for a structure as set forth in Section 700 Table 1 for the Zoning District in which the tower or antenna is located.

712.03-2 **Amateur Radio and Receive-Only Antennas.**

This ordinance shall not apply to and no permit shall be required for any tower or the installation of any antenna, that is (1) under 50 feet in height and is owned and operated by a federally-licensed amateur radio station operator or is (2) used exclusively for receive only antennas for amateur radio station operation.

712.03-3 **Existing Structures and Towers.**

The placement of an antenna on or in an existing structure such as a building, sign, light pole, water tank, or other freestanding structure or existing tower or pole shall be permitted so long as the addition of said antenna shall not result in the height of the antenna, tower or structure being in excess of the maximum height for a structure as set forth in Section 700, Table 1. Otherwise, the co-location of antennas on an existing tower or other structure shall require a conditional use permit. A permitted use under this section also may include the placement of additional buildings or other supporting equipment used in connection with said antenna so long as such building or equipment is placed within the existing structure or property and is necessary for such use.

712.04 **GENERAL GUIDELINES AND REQUIREMENTS**

712.04-1 **Principal or Accessory Use**

For purposes of determining compliance with area requirements, antennas and towers may be considered either principal or accessory uses. An existing use or an existing structure on the same lot shall not preclude the installation of antennas or towers on such lot. For purposes of determining whether the installation of a tower or antenna complies with district regulations, the dimensions of the entire lot shall control, even though the antennas or towers may be located on leased area within such lots. Towers that are constructed, and antennas that are installed, in accordance with the provisions of this ordinance shall not be deemed to constitute the expansion of a nonconforming use or structure.

712.04-2 **Inventory of Existing Sites.**

Each applicant for an antenna and or tower shall provide to the Zoning Administrator an inventory of all existing facilities within a five-mile radius of the proposed site, including specific information about the location, height, and existing use and available capacity of each tower. The Zoning Administrator may share such information with other applicants applying for approvals or conditional use permits under this ordinance or other organizations seeking to locate antennas within the jurisdiction of the County, provided, however that the Zoning Administrator shall not, by sharing such information, in any way represent or warrant that such sites are available or suitable.

712.04-3 **Design; Lighting**

The requirements set forth in this section shall govern the location of all towers and the installation of all antennas governed by this ordinance; provided however, that the Planning Commission and Board of Supervisors may waive any of these requirements if it determines that the goals of this ordinance are better served thereby.
• Towers shall either maintain a galvanized steel finish or, subject to any applicable standards of the FAA, be painted a neutral color, so as to reduce visual obtrusiveness. Dish antennas will be of a neutral, non-reflective color with no logos.

• At a facility site, the design of the buildings and related structures shall, to the extent possible, use materials, colors, textures, screening, and landscaping that will blend the tower facilities to the natural setting and surrounding structures.

• If an antenna is installed on a structure other than a tower, the antenna and supporting electrical and mechanical equipment must be of a neutral color that is identical to, or closely compatible with, the color of the supporting structure so as to make the antenna and related equipment as visually unobtrusive as possible.

• Towers shall not be artificially lighted, unless required by the FAA or other applicable authority. If lighting is required, the Planning Commission and Board of Supervisors may review the available lighting alternatives and require the design that would cause the least disturbance to the surrounding views.

• No advertising of any type may be placed on the tower or accompanying facility unless as part of retrofitting an existing sign structure.

• To permit co-location, the tower shall be designed and constructed to permit extensions to a maximum height of 150 feet unless engineering justification is provided to document the additional height request.

• Towers shall be designed to collapse within the lot lines or leased area in case of structural failure. Amended 10/2010

712.05 FEDERAL REQUIREMENTS

All towers must meet or exceed current standards and regulations of the FAA, the FCC, and any other agency of the federal government with the authority to regulate towers and antennas.

712.06 BUILDING CODES

To ensure the structural integrity of towers, the owner of a tower shall ensure that it complies with standards contained in applicable federal, state and local building codes and regulations.

712.07 INFORMATION REQUIRED

Each applicant requesting a conditional use permit under this ordinance shall submit a scaled plan, a scaled elevation view and other supporting drawings, calculations, and other documentation, signed and sealed by appropriate licensed professionals, showing the location and dimensions of all improvements, including information concerning topography, radio frequency coverage, tower height requirements, set-backs, means of access, parking, fencing, landscaping and adjacent uses. The Planning Commission and Board of Supervisors may require other information to be necessary to assess compliance with this ordinance, including frequencies of transmission, in watts, and a copy of the antenna pattern. Additionally, applicant shall provide actual photographs of the site that include a simulated photographic image of the proposed tower. The photograph with the simulated image shall include the foreground, the mid-ground, and the background of the site.

712.07-1 All proposed towers must be compatible for co-location with a minimum of two (2) users including the primary user. The applicant must submit an engineering study certifying such multiple use is feasible. The governing body in a particular case may waive this provision for good cause shown. Amended 10/2010
712.07-2  The applicant shall provide copies of its co-location policy.

712.07-3  The applicant shall provide copies of propagation maps demonstrating that antennas and sites for possible co-locator antennas are no higher in elevation than necessary.

712.08  FACTORS CONSIDERED IN GRANTING CONDITIONAL USE PERMITS FOR NEW TOWERS

The applicant shall obtain a conditional use permit from the Giles County Planning Commission and Board of Supervisors before erecting towers or antennas covered by this article. The Planning Commission and Board of Supervisors shall consider the following factors in determining whether to issue a conditional use permit, although the Planning Commission and Board of Supervisors may waive or reduce the burden on the applicant of one or more of these criteria if the Planning Commission and Board of Supervisors concludes that the goals of this ordinance are better served thereby.

a. Height of the proposed tower;
b. Proximity of the tower to residential structures and residential district boundaries;
c. Nature of the uses on adjacent and nearby properties;
d. Surrounding topography;
e. Surrounding tree coverage and foliage;
f. Design of the tower, with particular reference to design characteristics that have the effect of reducing or eliminating visual obtrusiveness;
g. Proposed ingress and egress;
h. Co-location policy;
i. Language of the lease agreement dealing with co-location; Consistency with the comprehensive plan and the purposes to be served by zoning;
k. Availability of suitable existing towers and other structures as discussed below; and
l. Proximity to commercial or private airports.

712.09  AVAILABILITY OF SUITABLE EXISTING TOWERS OR OTHER STRUCTURES

f. The applicant demonstrates that there are other limiting factors that render existing towers and structures unsuitable.

712.10 SETBACKS

The following setback requirements shall apply to all towers and antennas for which a conditional use permit is required; provided, however, that the Planning Commission and Board of Supervisors may reduce the standard setback requirements if the goals of this ordinance would be better served thereby.

The cost of removal shall be assessed to the landowner and/or antenna or tower owner as a lien equal to a tax lien. Prior to undertaking removal at the expense of the landowner, such owner shall be given an additional notice of thirty (30) days, in the same manner as set forth above, advising such owner that the tower or antenna has been abandoned and that the failure to remove same within thirty (30) days will result in removal by the County at the expense of the landowner.

712.15 REQUIRED YEARLY REPORT

The owner of each such antenna or tower shall submit a report to the Giles County Zoning Administrator, once a year, no later than July 1. The report shall state the current user status of the tower. 805.01-4 The condition or situation of the property concerned or the intended use of the property is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to the Chapter;

805.01-5 The purpose for which the variance is sought does not include a change in use which change shall be accomplished by a rezoning or by a conditional zoning.

805.02 Public Hearing Required.
